SUNBRELLA® FABRICS

Sunbrella® is a solution-dyed acrylic fabric with an acclaimed history in outdoor furnishings. Through the process of solution dyeing, colour pigments are added into the fabric in its liquid state, fortifying its colour-fast properties. Due to this particular process, Sunbrella® materials are made to be durable, resilient, colour-fast and superior in strength. With its five year manufacturers limited warranty against fading, Sunbrella® is the best fabric available for customers looking for fabric longevity.

Note: Where applicable, height dimensions listed are to the top of the cushions.

ALUMINUM / SLING FURNITURE

Extruded Aluminum is exceptionally strong, but light in weight. It is the perfect choice for those who are looking for a product that requires no maintenance and is exceptionally comfortable. The seats and backs are made of highly durable nylon mesh that wears extremely well in all weather conditions and is long lasting.

SYNTHETIC WICKER FURNITURE

In recent years, synthetic wicker has become one of the industry's most sought-out, for style and comfort. The strong and durable resin wicker is woven around an aluminum frame, making it able to withstand the outdoor elements. Synthetic wicker is maintenance free. All our Synthetic Wicker Furniture is constructed of aluminum tube framing that is welded together, eliminating the need for nuts and bolts, and then "powder coated". The wicker that is used on our products is made of 100% synthetic polyethylene material and is a consistent colour throughout so that fading is not an issue.

CAST ALUMINUM FURNITURE

Over the past decade, Cast Aluminum has consistently been the first choice for Outdoor Dining Furniture, combining timeless Cast designs, with the non rusting element of Aluminum. Each piece is cleaned by using an "acid-wash" process and then "powder-coated" to the industries highest standards. Cast Aluminum Furniture requires a minimal amount of maintenance and is superb for the Canadian weather elements.

WROUGHT IRON FURNITURE

Wrought Iron sets a traditional tone to a backyard with its long history in outdoor furniture designs. Due to its classic designs, Wrought Iron blends into any type of backyard. It is one of the strongest materials as it is made from solid rolled iron. All our Wrought Iron furniture then goes through an "acid-wash" process to clean off all the foreign material from the Rolled Iron, and is then "E-Coated" and finally "Powder-Coated" to the highest standards in the industry.

POLYRESIN

Polyresin is one of the strongest materials used to make outdoor furniture. The high density polyethylene (HDPE) plastic, is ground up and then blended together with pigment throughout. This mixture then goes through extruders that melt the mixture to form strong and durable plastic lumber. HDPE is environmentally friendly, as it's made from recycled bottle caps, milk jugs and juice containers. (No.2 plastic). This plastic lumber is then cut and shaped to form one of the heaviest materials for outdoor furniture. The materials extra weight and strength make it an excellent choice of furniture in extremely windy areas such as cottages or ocean front properties, as well as areas that experience harsh weather conditions.
